PROFILE

Motivated Software Engineering undergraduate with a strong interest in web development and software engineering. Skilled in Java, HTML, CSS, JavaScript, React, MySQL, and MongoDB, with hands-on experience developing academic and personal projects. Passionate about learning new technologies, solving problems, and building user-friendly applications. Seeking a software engineering internship to apply my technical knowledge and gain practical industry experience.

PROJECTS

Smart Farming System

Full-Stack Web Application

- Developed a full-stack smart farming platform to help farmers manage crops, expenses, harvests, and farming activities.
- Implemented RESTful APIs, authentication, database management, and an AI-powered assistant.
- Technologies: React, TypeScript, Tailwind CSS, Node.js, Express.js, MongoDB, JWT, Google Gemini AI

Movie Ticket Booking System

Web Application

- Developed a web-based movie ticket booking system for browsing movies, selecting showtimes, and managing ticket bookings.
- Implemented frontend functionality and backend integration for handling movie and booking data.
- Technologies: HTML, CSS, JavaScript, Java, MySQL

MedReminder App

Mobile Application

- Developed a mobile application for managing medicines and medication reminders.
- Implemented user authentication, medicine management, reminder notifications, history tracking, and profile management.
- Technologies: React Native, Expo, Firebase Authentication, Firestore, Expo Notifications
